NURSES AND NURSING CARE

Aged Patients in Long-Term Care Facilities, A Staff Manual, Based on Staff Seminars Conducted at the Hebrew Home for the Aged at Riverdale, New York. *One of the most difficult problems encountered by those caring for the residents of long-term care institutions is posed by older residents displaying the mental impairment of chronic brain syndrome. This publication consists of the edited texts of a series of seminars on this subject given by Dr. Alvin Goldfarb, one of the Nation's leading geriatric psychologists, for the staff of one long-term care facility in New York. Because these seminars concentrated on those aspects of chronic brain syndrome patient care that are applicable to virtually all long-term care facilities, this publication forms a thorough and thought-provoking in-service training document for the staff members of any institution that cares for older patients on a regular basis.* 1973, reprinted 1979. 82 p. il.
